

Please do not pursue this idea to ease the fcc ownership rules. the people of this country are NOT for consolidation of the media. there were three things that were done for Germany to become a totalitarian state - control of the media was one of them. please do not aid in the further destruction of our constitution and of the freedom to hear differeing views. i know no one here is dumb enough to believe that this idea represents anything other than what i have spoken about here. don't do it. the people do not want this. listen to us, please. you represent the voice of the people in more ways than a few. take that responsibility and dont squander it. thank you for your time.
